4th BHDT UREA CONFERENCE 2017

October 4th to 6th, 2017

Salzburg, Austria

4th BHDT UREA CONFERENCE 2017

„Installation, Service and Maintenance Aspects of HP Equipment“

We are happy to invite you to our 4th BHDT UREA Conference, 4th to 6th October 2017, in Salzburg Austria. This one of a kind UREA Conference will be a great opportunity to meet customers, licensors, contractors, suppliers, consultants and friends, involved in the Urea Industry.

During the plenary presentations this time we will emphasize on the installation, service and maintenance aspects of HP equipment. HP equipment plays a key role in every Urea and Ammonia plant. The right answers to the questions and challenges related to HP equipment during installation and operation are an asset to everybody involved in the Urea industry.

The BHDT team together with the experienced co-presenters from licensors, contractors, users as well as customers, equipment vendors and material technologists have set up a very interesting two day program for project, process, operational, mechanical, maintenance, inspection and reliability engineers of Urea plants.

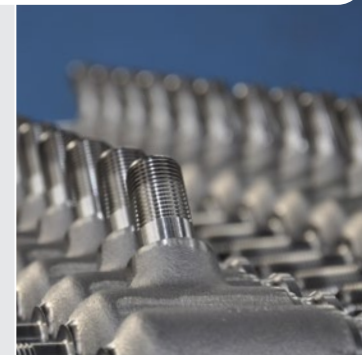

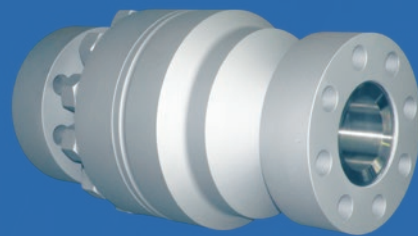

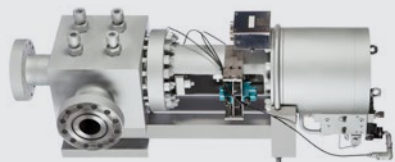

The plenary presentations we will be followed by a city tour and a social event which will provide great networking opportunities for everybody in the beautiful venue of the fortress of Hohensalzburg.

We look forward to welcome you at the 4th BHDT Urea Conference in Salzburg

Dr. Harald Aichhorn,
President BHDT
